## equity investments during the quarter

- **Contributed \$414.9 million of loans to one securitization transaction**

NEW YORK--(BUSINESS WIRE)--November 3, 2016--Ladder Capital Corp (NYSE:LADR) (“we,” “Ladder,” or the “Company”) today announced operating results for the quarter ended September 30, 2016. GAAP Income/(loss) before taxes for the three months ended September 30, 2016 was \$58.3 million compared to \$(1.4) million for the three months ended September 30, 2015. The results for the third quarter of 2016 reflect higher gains on the sales of securities and loans than in the prior year, as well as the unfavorable impact of declining interest rates during the third quarter of 2015 on the value of interest rate hedges. GAAP Income/(loss) before taxes for the nine months ended September 30, 2016 was \$47.6 million compared to \$93.6 million for the nine months ended September 30, 2015. The year to date 2016 results reflect lower gains on loan securitizations and securities trading than in the first nine months of 2015. The Diluted EPS for the three and nine months ended September 30, 2016 was \$0.44 and \$0.40, respectively, compared to \$0.06 and \$0.91 for the three and nine months ended September 30, 2015, respectively. After-tax GAAP return on average equity was 12.7% in the third quarter of 2016.

Core Earnings, a non-GAAP financial measure, was \$44.5 million for the third quarter of 2016, compared to \$41.2 million earned in the third quarter of 2015. For the nine months ended September 30, 2016, Core Earnings was \$113.6 million compared to \$141.3 million for the comparable period in 2015. While the results of the third quarter of 2016 surpassed the comparable period in the prior year, the nine month results reflect lower gains on sales of loans due to unfavorable market trends prevailing during the first half of this year. We believe Core Earnings, which adjusts GAAP income before taxes for certain non-cash expenses (including depreciation related to our real estate equity portfolio) and unrecognized derivative results, is useful in evaluating our earnings from operations across reporting periods. Core EPS, a non-GAAP financial measure, was \$0.40 for the third quarter of 2016 and \$1.10 for the nine months ended September 30, 2016, compared to \$0.40 and \$1.40 for the three and nine months ended September 30, 2015, respectively.

---

“We are pleased with our results in the third quarter, with Core Earnings of \$44.5 million and an annualized after-tax core return on average equity of 11.7%” said Brian Harris, Ladder's Chief Executive Officer. “With the return of stronger profits from our securitization business, we are now seeing strong performance from all of our business segments.”

As of September 30, 2016, we had total assets of \$6.2 billion, including \$2.4 billion of commercial real estate loans, \$2.7 billion of commercial real estate-related securities, \$825.6 million of real estate, \$97.2 million of cash and \$214.9 million of other assets. As of September 30, 2016, 80.5% of our total assets were comprised of senior secured assets, including first mortgage loans, commercial real estate-related securities secured by first mortgage loans, and cash. During the third quarter, originations and acquisitions of senior secured assets comprised 96.3% of the total \$1.2 billion investment activity.

During the quarter ended September 30, 2016, we originated \$845.5 million of loans comprised of \$525.8 million of commercial mortgage loans held for sale and \$319.6 million of commercial mortgage loans held for investment. We participated in 1 securitization transaction during the third quarter of 2016 contributing a total of \$414.9 million in face amount of commercial mortgage loans. The sale of loans into this securitization transaction resulted in net income from the sale of loans of \$19.6 million in the third quarter. After factoring in related hedging results and other related adjustments, income from sales of securitized loans, net of hedging during the third quarter was \$16.6 million. We also received \$222.6 million from the repayment of mortgage loans during the three months ended September 30, 2016.

Our portfolio of CMBS and U.S. Agency Securities decreased by \$49.3 million during the third quarter to \$2.7 billion as we purchased \$322.8 million and sold \$178.8 million of securities during the quarter. We also received \$172.2 million of proceeds from the repayment of securities.

During the third quarter of 2016, we purchased 4 single tenant net lease and other properties for a total investment of \$34.2 million. We have financed or plan to finance these properties with non-recourse mortgage loans that have been contributed to securitizations or internal non-recourse mortgage loans that are eligible for securitization. During the three months ended September 30, 2016, our mortgage loan financing increased by \$28.6 million primarily due to the contribution of 6 loans secured by our real estate investments to securitizations. We also sold 29 condominium units for a total of \$10.2 million during the third quarter, which generated a net gain on sale of real estate of \$4.2 million. Our total real estate portfolio as of September 30, 2016 was \$825.6 million.

Net interest income for the third quarter of 2016 was \$29.6 million, compared to \$33.5 million for the comparable period in the prior year, primarily due to lower weighted average yield on our mortgage loan receivables and higher interest expense as a result of higher outstanding financing obligations. Total other income increased significantly year over year to \$69.3 million in the third quarter of 2016 from \$7.5 million in the third quarter of 2015. Compared to the third quarter of 2015, net gain from derivative transactions increased by \$51.6 million, primarily due to an adverse change in the value of interest rate hedges in 2015. A net gain from sale of loans of \$19.6 million compared to \$15.2 million in the prior year also contributed to higher total other income.

Note: CMBS investments and U.S. Agency Securities are carried at fair value.

We originate conduit first mortgage loans eligible for securitization that are secured by cash-flowing commercial real estate properties. These first mortgage loans are structured with fixed rates and five- to ten-year terms. As of September 30, 2016, we held 33 first mortgage loans that were substantially available for contribution into future securitizations with an aggregate book value of \$784.2 million. Based on the outstanding loan principal balances at September 30, 2016 and the “as-is” third-party FIRREA appraised values at origination, the weighted average loan-to-value ratio of this portfolio was 65.6%.

We also originate balance sheet first mortgage loans secured by commercial real estate properties that are undergoing lease-up, sell-out, renovation, or repositioning. These mortgage loans are generally structured with floating rates and terms (including extension options) ranging from one to five years. As of September 30, 2016, we held a portfolio of 69 balance sheet first mortgage loans with an aggregate book value of \$1.5 billion, 97.5% of which was floating-rate. Based on the outstanding loan principal balances at September 30, 2016 and the “as-is” third-party FIRREA appraised values at origination, the weighted average loan-to-value ratio of this portfolio was 66.6%.

We selectively invest in other commercial real estate loans in the form of note purchase financings, subordinated debt, mezzanine debt, and other structured finance products related to commercial real estate. We held \$169.2 million of other commercial real estate-related loans as of September 30, 2016, all of which were fixed-rate. Based on the outstanding loan principal balances through the mezzanine or subordinated debt level at September 30, 2016 and the “as-is” third-party FIRREA appraised values at origination, the weighted average loan-to-value ratio of this portfolio was 74.2%.

As of September 30, 2016, our portfolio of CMBS investments had an estimated fair value of \$2.6 billion and was comprised of investments in 199 CUSIPs (\$13.0 million average investment per CUSIP), with a weighted average duration of 3.1 years.

As of September 30, 2016, our portfolio of U.S. Agency Securities had an estimated fair value of \$62.2 million and was comprised of investments in 31 CUSIPs (\$2.0 million average investment per CUSIP), with a weighted average duration of 8.0 years.

As of September 30, 2016, we owned 6.9 million square feet of real estate, comprised of 112 single tenant net lease properties, 4 individual office buildings, 3 portfolios of office buildings, 1 warehouse, 1 shopping center, 74 condominium units at Veer Towers in Las Vegas, and 104 condominium units at Terrazas River Park Village in Miami. Our total real estate portfolio had an aggregate book value of \$825.6 million. We typically originate internal non-recourse mortgage loan financing secured by an individual property or a group of properties in our real estate portfolio and subsequently seek to securitize these loans. Once the loans have been securitized, they are included on our balance sheet as mortgage loan financing. As of September 30, 2016, we had \$575.5 million of such mortgage loan financing, secured by certain of our real estate properties.

On October 18, 2016, Ladder Capital Asset Management LLC (“LCAM”), a subsidiary of the Company and a registered investment adviser, launched the Ladder Select Bond Fund (the “Fund”), a mutual fund. In addition, on October 18, 2016, we made a \$10.0 million investment in the Fund. Members of senior management have also invested \$1.6 million in aggregate in the Fund since inception. LCAM earns a 0.75% fee on assets under management, which may be reduced for expenses incurred in excess of the Fund’s expense cap of 0.95%.

## Liquidity and Capital Resources

We held unrestricted cash and cash equivalents of \$59.7 million at September 30, 2016. We had total debt outstanding of \$4.6 billion as of September 30, 2016, and we had an additional \$1.5 billion of committed financing available for additional investment through our FHLB membership, our revolving credit agreements, and our committed repurchase facilities. As of September 30, 2016, we had \$63.2 million of nonrecourse mortgage loan receivable financing, a result of a contribution of \$61.6 million of non-controlling pari passu interests to a securitization transaction during the quarter. Because effective control continued to reside with the retained portions of the loans, the transfers are considered nonrecourse secured borrowings rather than asset sales. The full loan assets remain on the Company's consolidated balance sheets, and the sale proceeds are recognized as nonrecourse mortgage loan receivable financing.

The following table summarizes our debt obligations as of the following dates:

	<u>September 30, 2016</u>		<u>December 31, 2015</u>
		(\$ in thousands)	
Committed loan facilities	\$ 622,643	\$	704,149

To maintain our qualification as a REIT under the Internal Revenue Code of 1986, as amended, we must annually distribute at least 90% of our taxable income. The REIT distribution requirements limit our ability to retain earnings and thereby replenish or increase capital for operations. We believe that our significant capital resources and access to financing will provide us with financial flexibility at levels sufficient to meet current and anticipated capital requirements, including funding new investment opportunities, paying distributions to our shareholders and servicing our debt obligations.

## Conference Call and Webcast

We will host a conference call on Thursday, November 3, 2016 at 5:00 p.m. Eastern Time to discuss third quarter 2016 results. The conference call can be accessed by dialing (877) 407-4018 domestic or (201) 689-8471 international. Individuals who dial in will be asked to identify themselves and their affiliations. For those unable to participate, an audio replay will be available from 8:00 p.m. Eastern Time on Thursday, November 3, 2015 through midnight Thursday, November 17, 2015. To access the replay, please call (844) 512-2921 domestic or (412) 317-6671 international, access code 13646520. The conference call will also be webcast through a link on Ladder Capital Corp's Investor Relations website at [ir.laddercapital.com](http://ir.laddercapital.com). A web-based archive of the conference call will also be available at the above website.

## Reconciliation of Non-GAAP Financial Measures

We present Core Earnings, Core EPS, and After-Tax Core Return on Average Equity ("After-Tax Core ROAE"), which are non-GAAP financial measures, as supplemental measures of our performance. We believe Core Earnings, Core EPS and After-Tax Core ROAE assist investors in comparing our performance across reporting periods on a consistent basis by excluding non-cash expenses and unrecognized results from derivatives and Agency interest-only securities, which we believe makes comparisons across reporting periods more relevant by eliminating timing differences related to changes in the values of assets and derivatives. In addition, we use Core Earnings, Core EPS and After-Tax Core ROAE: (i) to evaluate our earnings from operations and (ii) because management believes that it may be a useful performance measure for us. Core Earnings is also used as a factor in determining the annual incentive compensation of our senior managers and other employees.

We present Undepreciated book value per share, which is a non-GAAP financial measure, as a supplemental measure of our financial condition. We believe Undepreciated book value per share assists investors in comparing our financial condition across reporting periods on a consistent basis by excluding accumulated depreciation on real estate, which implicitly assumes that the value of our real estate diminishes in value predictably over time, whereas real estate values have historically risen or fallen with market conditions.

We present income from sales of securitized loans, net of hedging, a non-GAAP financial measure, as a supplemental measure of the performance of our loan securitization business. Income from sales of securitized loans, net is a key component of our results. Since our loans sold into securitizations to date are comprised of long-term fixed-rate loans, the result of hedging those exposures prior to securitization represents a substantial portion of our interest rate hedging. Therefore, we view these two components of our profitability together when assessing the performance of this business activity and find it a meaningful measure of the Company's performance as a whole.

We consider the Class A common shareholders of the Company and limited partners of Ladder Capital Finance Holdings LLLP other than Ladder Capital Corp ("Continuing LCFH Limited Partners") to have fundamentally equivalent interests in our pre-tax earnings and net income. Accordingly, for purposes of computing Core Earnings, Core EPS and After-Tax Core ROAE, we start with pre-tax earnings or net income and adjust for other noncontrolling interest in consolidated joint ventures but we do not adjust for amounts attributable to noncontrolling interest held by Continuing LCFH Limited Partners. Similarly, when calculating Undepreciated book value per share we include Total shareholders' equity and the noncontrolling interest held by Continuing LCFH Limited Partners, but exclude noncontrolling interest in consolidated joint ventures.

---

### *Core Earnings*

We define Core Earnings as income before taxes adjusted to exclude (i) real estate depreciation and amortization, (ii) the impact of derivative gains and losses related to the hedging of assets on our balance sheet as of the end of the specified accounting period, (iii) unrealized gains/(losses) related to our investments in Agency interest-only securities, (iv) the premium (discount) on mortgage loan financing and the related amortization of premium (discount) on mortgage loan financing recorded during the period, (v) non-cash stock-based compensation and (vi) certain one-time transactional items.

We do not designate derivatives as hedges to qualify for hedge accounting and therefore any net payments under, or fluctuations in the fair value of, our derivatives are recognized currently in our income statement. However, fluctuations in the fair value of the related assets are not included in our income statement. We consider the gain or loss on our hedging positions related to assets that we still own as of the reporting date to be "open hedging positions." While recognized for GAAP purposes, we exclude the results on the hedges from Core Earnings until the related asset is sold and the hedge position is considered "closed," whereupon they would then be included in Core Earnings in that period. These are reflected as "Adjustments for unrecognized derivative results" for purposes of computing Core Earnings for the period.

Our investments in Agency interest-only securities are recorded at fair value with changes in fair value recorded in current period earnings. We believe that excluding these specifically identified gains and losses associated with the open hedging positions adjusts for timing differences between when we recognize changes in the fair values of our assets and derivatives which we use to hedge asset values. Set forth below is an unaudited reconciliation of Net Income to After-Tax Core Earnings:

- (4) We recorded an additional \$3.2 million income tax expense for a proposed tax settlement for pre-acquisition liabilities on certain corporate entities acquired in the IPO Reorganization Transactions. We also recorded other income of \$3.2 million relating to the expected recovery of these amounts pursuant to indemnification. While these items are presented on a gross basis, there was no impact to either net income or core earnings. Accordingly, since pre-tax income excludes the tax effect but includes the recovery of \$3.2 million pursuant to the indemnification, the recovery amount must also be excluded from Core Earnings.
- (5) One-time transactional adjustment for costs related to restructuring the Company for REIT related operations. All costs were expensed and accrued for in the period incurred.
- (6) Core estimated corporate tax benefit (expense) based on effective tax rate applied to Core Earnings generated by the activity within our taxable REIT subsidiary.

### Core EPS

Core EPS is defined as After-Tax Core Earnings divided by the Adjusted weighted average shares outstanding (diluted) during the period. The Adjusted weighted average shares outstanding (diluted) is defined as the GAAP weighted average shares outstanding (diluted), adjusted for shares issuable upon conversion of all Class B shares, if excluded from the GAAP measure because they would have an anti-dilutive effect. The inclusion of shares issuable upon conversion of Class B shares is consistent with the inclusion of income attributable to noncontrolling interest in operating partnership in Core Earnings and After-Tax Core Earnings.

Set forth below is an unaudited reconciliation of Weighted average shares outstanding (diluted) to Adjusted weighted average shares outstanding (diluted):

Our non-GAAP financial measures, including Core Earnings, Core EPS, After-Tax Core ROAE and Undepreciated book value per share have limitations as analytical tools. Some of these limitations are:

- Core Earnings, Core EPS and After-Tax Core ROAE do not reflect the impact of certain cash charges resulting from matters we consider not to be indicative of our ongoing operations and are not necessarily indicative of cash necessary to fund cash needs;
- Core EPS and After-Tax Core ROAE are based on a non-GAAP estimate of Ladder's effective tax rate, including the impact of UBT and the impact of Ladder's election to be taxed as a REIT effective January 1, 2015, assuming the conversion of all shares of Class B common stock into shares of Class A common stock. Ladder's actual tax rate may differ materially from this estimate;
- Undepreciated book value per share excludes accumulated real estate depreciation and amortization and may not reflect an accurate measure of the value of our real estate; and
- other companies in our industry may calculate non-GAAP financial measures differently than we do, limiting their usefulness as comparative measures.

Because of these limitations, our non-GAAP financial measures should not be considered in isolation or as a substitute for net income (loss) attributable to shareholders, earnings per share or book value per share, or any other performance measures calculated in accordance with GAAP. Our non-GAAP financial measures should not be considered an alternative to cash flows from operations as a measure of our liquidity. Undepreciated book value per share should not be considered a measure of the value of our assets upon an orderly liquidation of the Company.

In the future, we may incur gains and losses that are the same as or similar to some of the adjustments in this presentation. Our presentation of non-GAAP financial measures should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

For additional information about our non-GAAP financial measures, please refer to the disclosures available on our website or our Quarterly Report on Form 10-Q.

## About Ladder

Ladder is an internally-managed real estate investment trust that is a leader in commercial real estate finance. Ladder originates and invests in a diverse portfolio of commercial real estate and real estate-related assets, focusing on senior secured assets.
